Dear Parents,

As we have embarked on the academic year 2024-25 and the activities are in full swing at school, it would be beneficial if a discussion is held regarding the plan of action for the year and various matters pertaining to the implementation of NEP 2020 at school that involves various strategies aimed at fostering holistic development and 21st-century skills among students like Holistic and Multidisciplinary Learning, Experiential Learning, Competency-Based Education, Promotion of Languages and the like.

Your insights and participation are crucial in ensuring that we provide the best possible educational experience for our children. The schedule for the said meeting is as follows –
